FORWARD LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and any information incorporated by reference contain forward-looking statements relating to future events or our future results. These statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act, and are intended to come within the safe harbor protection provided by those sections. Statements that are not historical facts, including statements about our beliefs, opinions, or expectations and statements that assume or are dependent upon future events, are forward-looking statements and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” “will,” “would,” “may,” “could,” “should,” “goal,” or “target.” Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. Forward-looking statements are based upon assumptions as to future events or our future financial performance that may not prove to be accurate. The forward-looking statements, as well as our prospects as a whole, are subject to risks and uncertainties, including, among others, the following: the severity,

magnitude and duration of the COVID-19 pandemic, including changes in the macroeconomic environment, restrictions on business, individual or travel activities intended to slow the spread of the pandemic, and volatility in market conditions resulting from the pandemic including interest rates, the value of equities and other financial assets; increases in financing costs; the availability of financing or limits on liquidity resulting from disruptions in the capital markets or other factors; unanticipated increases in costs associated with compliance with federal, state or local laws and regulations; changes in the demand for asset management and business processing solutions or other changes in marketplaces in which we compete (including increased competition); changes in accounting standards including but not limited to changes pertaining to loan loss reserves and estimates or other accounting standards that may impact our operations; adverse outcomes in any significant litigation to which we are a party; credit risk associated with our underwriting standards or exposure to third parties, including counterparties to hedging transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) or other new laws and the implementation of existing laws). We could also be affected by, among other things: unanticipated repayment trends on loans including prepayments or deferrals in our securitization trusts that could accelerate or delay repayment of the bonds; reductions to our credit ratings, the credit ratings of asset-backed securitizations we sponsor or the credit ratings of the United States of America; failures of our operating systems or infrastructure, or those of third-party vendors; risks related to cybersecurity including the potential disruption of our systems or those of our third-party vendors or customers, or potential disclosure of confidential customer information; damage to our reputation resulting from cyber-breaches, litigation, the politicization of student loan servicing or other actions or factors; failure to successfully implement cost-cutting initiatives and adverse effects of such initiatives on our business; failure to adequately integrate acquisitions or realize anticipated benefits from acquisitions including delays or errors in converting portfolio acquisitions to our servicing platform; changes in law and regulations whether new laws or regulations, or new interpretations of existing laws and regulations applicable to any of our businesses or activities or those of our vendors, suppliers or customers; changes in the general interest rate environment, including the availability of any relevant money-market index rate, including LIBOR, or the relationship between the relevant money-market index rate and the rate at which our assets are priced; our ability to successfully effectuate any acquisitions and other strategic initiatives; activities by shareholder activists, including a proxy contest or any unsolicited takeover proposal; changes in general economic or social conditions; and the other factors that are described in the “Risk Factors” section of our Annual Report on Form 10-K for the year ended December 31, 2019 and in our other reports filed with the SEC.

The preparation of our consolidated financial statements also requires management to make certain estimates and assumptions including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect and actual results could differ materially. All forward-looking statements contained in this prospectus supplement are qualified by these cautionary statements and are made only as of the date of this document. We do not undertake any obligation to update or revise these forward-looking statements except as required by law.

For more information regarding these risks and uncertainties as well as certain additional risks that we face, investors should review the risks described in this prospectus supplement and those incorporated by reference into the accompanying prospectus, including those risks in our Annual Report on Form 10-K for the year ended December 31, 2019, and subsequent reports and registration statements filed from time to time with the SEC.

Our Company

We are a leading provider of education loan management and business processing solutions for education, healthcare, and government clients at the federal, state, and local levels. We help our clients and millions of Americans achieve financial success through technology-enabled financing, services and support.

With a focus on data-driven insights, service, compliance and innovative support, Navient:

- owns \$80.8 billion of education loans as of September 30, 2020;
- originates private education loans (“Private Education Loans”);
- services and performs asset recovery activities on its own portfolio of education loans, as well as education loans owned by other institutions, including the United States Department of Education (“ED”); and
- provides revenue cycle management and business processing services to federal, state and municipal clients, public authorities and healthcare organizations.

As of September 30, 2020, our principal assets consisted of:

- \$59.5 billion in FFELP Loans, with a 1.03% Core Earnings segment net interest margin and a weighted average life of 7 years;
- \$21.3 billion in Private Education Loans, with a 3.24% Core Earnings segment net interest margin and a weighted average life of 5 years;
- a loan origination business that assists borrowers in refinancing their education loan debt and assists students and families in financing their higher education, which produced \$3.4 billion of Private Education Loan originations in the nine months ended September 30, 2020;
- an education loan servicing business that services over \$300 billion in ED, FFELP and Private Education Loans; and
- a business solutions suite through which we provide services for over 500 clients in the non-education related government and healthcare sectors.

Recent Developments

Department of Education Servicing Contract Extension

In June 2020, ED notified us that we were one of several entities selected to receive an award of a Next Generation (“NextGen”) Financial Services Business Process Outsourcing Contract. After careful analysis of the proposed contract and the differences between the proposed contract and the terms contained in the request for

proposal, we determined that we could not accept the terms of the contract as presented and we notified ED of that decision. ED has canceled the NextGen Enhanced Procession Solution procurement and has suspended the NextGen Interim Servicing Solution procurement. We are currently servicing under our existing contract with ED with a period of performance that currently runs through June 2021, with ED having one remaining 6-month extension option. The Consolidated Appropriations Act of 2021 authorized the Secretary of Education to further extend any of the current servicing contracts for up to an additional two years after their currently scheduled expiration; however, at this time, we cannot predict whether any such extensions will occur or the nature or timing of the procurement process for replacement services.

Impact of COVID-19

On March 27, 2020, the CARES Act was signed into law. In compliance with the CARES Act and related executive actions, payments and interest accrual on all loans owned by ED were suspended until September 30, 2021 and may be further suspended after such date. While the CARES Act applies only to loans owned by ED, several states have requested creditors and servicers to suspend payment obligations for other student loan borrowers in those states. Additionally, on March 25, 2020, ED announced that private collection agencies were required to stop making outbound collection calls and sending letters or billing statements to borrowers in default. Further, in April 2020, various restrictions around the servicing and collection of consumer debts were enacted by certain states or voluntarily agreed to by many servicers and some of these restrictions have been extended multiple times. These legislative and regulatory responses to COVID-19 may have a significant impact on our education loan portfolios and could materially and adversely affect our business.

Preliminary Financial Results for the Quarter and Year Ended December 31, 2020

On January 26, 2021, we issued a press release announcing our financial results as of and for the quarter and fiscal year ended December 31, 2020. We announced the results below, including Core Earnings net income which is a non-GAAP financial measure. An explanation of Core Earnings net income and a reconciliation to generally accepted accounting principles (“GAAP”) net income is provided below.

Fourth Quarter Results

- GAAP net income of \$186 million for the quarter ended December 31, 2020 compared to \$171 million for the same quarter from the previous year.
- Core Earnings net income of \$166 million for the quarter ended December 31, 2020 compared to \$153 million for the same quarter from the previous year.

Year End Results

- GAAP net income of \$412 million for the year ended December 31, 2020 compared to \$597 million for the year ended December 31, 2019.
- Core Earnings net income of \$631 million for the year ended December 31, 2020 compared to \$607 million for the year ended December 31, 2019.

Fourth Quarter Segment Results

GAAP requires segment results to be presented using the basis of reporting that management uses to review internally when making decisions regarding the performance of the business and how to allocate resources. We call the basis of reporting we use “Core Earnings”. Our segment results for the quarter ended December 31, 2020 are as follows:

- Core Earnings of \$134 million in our Federal Education Loans business segment for the quarter ended December 31, 2020 compared to \$136 million for the same quarter from the previous year.

- Core Earnings of \$108 million in our Consumer Lending business segment for the quarter ended December 31, 2020 compared to \$89 million for the same quarter from the previous year.
- Core Earnings of \$15 million in our Business Processing business segment for the quarter ended December 31, 2020 compared to \$8 million for the same quarter from the previous year.
- Core Earnings of \$(91) million in our Other business segment for the quarter ended December 31, 2020 compared to \$(80) million for the same quarter from the previous year.

Year End Segment Results

- Core Earnings of \$537 million in our Federal Education Loans business segment for the year ended December 31, 2020 compared to \$525 million for the year ended December 31, 2019.
- Core Earnings of \$360 million in our Consumer Lending business segment for the year ended December 31, 2020 compared to \$316 million for the year ended December 31, 2019.
- Core Earnings of \$39 million in our Business Processing business segment for the year ended December 31, 2020 compared to \$33 million for the year ended December 31, 2019.
- Core Earnings of \$(305) million in our Other business segment for the year ended December 31, 2020 compared to \$(267) million for the year ended December 31, 2019.

KPMG LLP, our independent registered public accounting firm, has not audited, reviewed, compiled or performed any procedures with respect to the financial information in the earnings release or provided above. We are currently preparing our Annual Report on Form 10-K for the year ended December 31, 2020. The financial statements therein will be audited by our independent registered public accounting firm. While we believe the financial information in the earnings release and herein fairly presents, in all material respects, our results of operations and financial condition for 2020 and as of the end of the year, the preparation of our Annual Report on Form 10-K and the audit by our independent registered public accounting firm could result in changes to our reported financial information, and such changes may be material.

Non-GAAP financial measures

We prepare financial statements and present financial results in accordance with GAAP. However, we also evaluate our business segments and present financial results on a basis that differs from GAAP. We refer to this different basis of presentation as Core Earnings. We provide this Core Earnings basis of presentation on a consolidated basis and for each business segment because this is what we review internally when making management decisions regarding our performance and how we allocate resources. We also refer to this information in our presentations with credit rating agencies, lenders and investors. Because our Core Earnings basis of presentation corresponds to our segment financial presentations, we are required by GAAP to provide Core Earnings disclosure in the notes to our consolidated financial statements for our business segments.

Core Earnings are not a substitute for reported results under GAAP. We use Core Earnings to manage our business segments because Core Earnings reflect adjustments to GAAP financial results for two items, discussed below, that can create significant volatility mostly due to timing factors generally beyond the control of management. Accordingly, we believe that Core Earnings provide management with a useful basis from which to better evaluate results from ongoing operations against the business plan or against results from prior periods. Consequently, we disclose this information because we believe it provides investors with additional information regarding the operational and performance indicators that are most closely assessed by management. When compared to GAAP results, the two items we remove to result in our Core Earnings presentations are:

- Mark-to-market gains/losses resulting from our use of derivative instruments to hedge our economic risks that do not qualify for hedge accounting treatment or do qualify for hedge accounting treatment but result in ineffectiveness; and

- The accounting for goodwill and acquired intangible assets.

While GAAP provides a uniform, comprehensive basis of accounting, for the reasons described above, our Core Earnings basis of presentation does not. Core Earnings are subject to certain general and specific limitations that investors should carefully consider. For example, there is no comprehensive, authoritative guidance for management reporting. Our Core Earnings are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Accordingly, our Core Earnings presentation does not represent a comprehensive basis of accounting. Investors, therefore, may not be able to compare our performance with that of other financial services companies based upon Core Earnings. Core Earnings results are only meant to supplement GAAP results by providing additional information regarding the operational and performance indicators that are most closely used by management, our board of directors, credit rating agencies, lenders and investors to assess performance.

The following table summarizes the differences between Core Earnings net income and GAAP net income and details each specific adjustment required to reconcile our Core Earnings segment presentation to our GAAP earnings.

RISK FACTORS

Any investment in the notes involves a high degree of risk. You should carefully consider the risks described below and all of the information contained in this prospectus supplement, the accompanying prospectus, any free writing prospectus and the documents incorporated by reference herein and therein before deciding whether to purchase the notes. In addition, you should carefully consider, among other things, the matters discussed under “Risk Factors” and “Legal Proceedings” in our Annual Report on Form 10-K for the year ended December 31, 2019, our Quarterly Report on Form 10-Q for the quarter ended September 30, 2020 and in other documents that we file from time to time with the SEC, all of which are incorporated by reference in this prospectus supplement and the accompanying prospectus. The risks and uncertainties described below are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of the following risks actually occur, our business, financial condition and results of operations would suffer. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See “Forward-Looking Statements” in this prospectus supplement and the accompanying prospectus.

Risks Related to This Offering

Our debt is structurally subordinated to the debt and other liabilities of our subsidiaries.

The notes are obligations exclusively of Navient Corporation. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our debt is “structurally subordinated” to all existing and future debt, trade creditors, and other liabilities of our subsidiaries. Our rights, and hence the rights of our creditors, to participate in any distribution of assets of any subsidiary upon its liquidation or reorganization or otherwise would be subject to the prior claims of that subsidiary’s creditors, except to the extent that our claims as a creditor of such subsidiary may be recognized. The indenture that governs the notes does not restrict our or our subsidiaries’ ability to incur indebtedness, including secured indebtedness, to pay dividends or make distributions on, or redeem or repurchase our equity securities, or to engage in highly leveraged transactions that would increase the level of our indebtedness.

We depend upon our subsidiaries to service our debt.

Our cash flow and our ability to service our debt, including the notes, is dependent upon the earnings of our subsidiaries. Our subsidiaries are separate and distinct legal entities. They have no obligation to pay any amounts due under the notes or to provide us with funds for our payment obligations. Payment to us by our subsidiaries will also be contingent upon our subsidiaries’ earnings and other business considerations.

Our substantial indebtedness could adversely affect our financial condition.

We will have a substantial amount of indebtedness, which could limit our ability to obtain additional financing for working capital, capital expenditures, stock repurchases, acquisitions, debt service requirements or other purposes. It may also increase our vulnerability to adverse economic, market and industry conditions, limit our flexibility in planning for, or reacting to, changes in our business operations or to our industry overall, and place us at a disadvantage in relation to our competitors that have lower debt levels. Any or all of the above events and/or factors could have an adverse effect on our results of operations and financial condition.

We may issue additional notes.

Under the terms of the indenture that governs the notes, we may from time to time without notice to, or the consent of, the holders of the applicable series of notes, create and issue additional notes of a new or existing series, which notes, if of an existing series, will be equal in rank to the notes of that series in all material respects so that the new notes may be consolidated and form a single series with such notes and have the same terms as to status, redemption or otherwise as such notes (except for the issue date and public offering price).

Redemption may adversely affect your return on your notes.

The notes are redeemable at our option, and therefore we may choose to redeem the notes at times when prevailing interest rates are relatively low. As a result, you may not be able to reinvest the proceeds you receive from the redemption in a comparable security at an effective interest rate as high as the interest rate on your notes being redeemed. Our ability to redeem the notes before the maturity date may affect the market value of the notes at any time when potential purchasers believe we are likely to redeem the notes.

An active trading market for the notes may not develop.

The notes are a new issue of securities for which there is no established trading market. We do not intend to apply for listing of the notes on any securities exchange or for inclusion of the notes on any automated dealer quotation system. As a result, an active trading market for the notes may not develop and any such market, if it were to develop, may not be liquid or sustainable for any period of time. Future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, the then-current ratings assigned to the notes, the market for similar securities and our performance. Any trading market that develops would be affected by many factors independent of and in addition to the foregoing, including:

- time remaining to the maturity of the notes;
- outstanding amount of the notes;
- the terms related to redemption of the notes; and
- level, direction and volatility of market interest rates generally.

The underwriters have advised us that they currently intend to make a market in the notes, but they are not obligated to do so and may cease market-making at any time without notice, which could further negatively impact your ability to sell the notes or the prevailing market price at the time you choose to sell.

A downgrade, suspension or withdrawal of the rating assigned by a rating agency to the notes, or changes in the financial and credit markets, could cause the liquidity or market value of the notes to decline significantly.

We expect that the notes will be rated by one or more rating agencies. Any rating assigned to the notes may not remain, may be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes in our business, warrant a change to the rating assigned.

In addition, the condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Any ratings downgrade of the notes or further disruptions in the financial and credit markets and future fluctuations in these markets and prevailing interest rates may have an adverse effect on the market value of the notes.

The provisions of the notes relating to change of control transactions will not necessarily protect you in the event of a highly leveraged transaction.

The change of control provisions in the terms of the notes will not necessarily afford you protection in the event of a highly leveraged transaction that may adversely affect you, including a takeover, reorganization, recapitalization, restructuring, merger or other similar transactions involving us. These transactions may not involve a change in voting power or beneficial ownership or result in a downgrade in the ratings of the notes, or, even if they do, may not necessarily constitute a Change of Control Triggering Event (as defined herein) that affords you the protections described in this prospectus supplement. As a result, we could enter into any such transaction even though the transaction could increase the total amount of our outstanding indebtedness, adversely affect our capital structure or credit rating or otherwise adversely affect the holders of the notes. Except as described under "Description of Notes—Repurchase Upon a Change of Control," the indenture does not contain provisions that permit the holders of the notes to require us to repurchase the notes in the event of a takeover, reorganization, recapitalization, restructuring, merger or similar transaction.

We may not be able to repurchase all of the notes upon a change of control, which would result in a default under each series of notes.

We will be required to offer to repurchase the notes upon the occurrence of a Change of Control Triggering Event as provided in the indenture governing the notes. However, we may not have sufficient funds to repurchase the notes in cash at such time. In addition, our ability to repurchase the notes for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time. The failure to make such repurchase would result in a default under the indenture.

Illiquid market conditions may occur from time to time.

From time to time, the secondary market for your notes may be adversely affected by periods of general market illiquidity or by events in the global financial markets in general or in the securities market in particular. Accordingly, you may not be able to sell your notes when you want to do so or you may be unable to obtain the price that you wish to receive for your notes and, as a result, you may suffer a loss on your investment.

Additionally, recent events in the global financial markets may cause a reduction of liquidity in the secondary market for your notes. Specifically, uncertainty surrounding the exit of the United Kingdom or any other country from the European Union, the abandonment by any country of the Euro or disruptions that may be caused by the ongoing COVID-19 pandemic would likely have a destabilizing effect on Eurozone countries and their economies and may have an adverse effect on the global economy as a whole.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting underwriters' discounts and estimated offering expenses of approximately \$1.1 million, will be approximately \$493.9 million. We intend to use the net proceeds from this offering for general corporate purposes, including debt repurchases.

DESCRIPTION OF NOTES

The following description is only a summary of certain provisions of the Indenture and the notes, copies of which are available upon request to us at the address set forth under “Where You Can Find More Information.” In this description, the term “Navient” refers only to Navient Corporation and not to any of its subsidiaries or affiliates. Certain capitalized terms used in this description but not defined below have the meanings assigned to them in the Indenture. We urge you to read the Indenture and the notes because they, and not this description, define your rights as holders of the notes.

General

Navient will issue the notes as a series of debt securities under a base indenture, dated as of July 18, 2014, between Navient, as the company, and The Bank of New York Mellon, as trustee (the “Trustee”), as supplemented by a supplemental indenture to be entered into between Navient and the Trustee. The term “Indenture” in this description of notes refers to the base indenture as supplemented by the supplemental indenture.

The notes will mature on March 15, 2028. Interest (computed on the basis of a 360-day year consisting of twelve 30-day months) on the notes will accrue at the rate of 4.875% per year and will be payable semi-annually in arrears on each March 15 and September 15, commencing on September 15, 2021; interest payable on each interest payment date will include interest accrued from February 2, 2021, or from the most recent interest payment date to which interest has been paid or duly provided for.

Navient will make each interest payment to the holders of record of the notes on the immediately preceding March 1 and September 1, as the case may be, commencing on September 1, 2021. The registered holder of a note will be treated as the owner of it for all purposes. Only registered holders will have rights under the Indenture.

The notes will be senior, unsecured obligations of Navient and will rank equally with all of Navient’s other existing and future unsecured and unsubordinated indebtedness. As of September 30, 2020, (i) we had an approximately \$9.5 billion aggregate principal amount of unsecured senior indebtedness outstanding with which the notes will rank *pari passu* and (ii) our subsidiaries had no unsecured senior indebtedness outstanding.

The notes will be represented by Global Securities, which will be deposited with, or on behalf of, The Depository Trust Company (“DTC”), New York, New York, and registered in the name of DTC’s nominee. Each note represented by a Global Security is referred to herein as a “Book-Entry Note.”

The Indenture does not limit the amount of notes or other debt securities of Navient that may be issued under the Indenture. Navient may also at any time and from time to time, without notice to or consent of the holders, issue additional debt securities of the same tenor, coupon and other terms as the notes, (except for the issue date and public offering price) so that such debt securities and the notes offered pursuant to this prospectus supplement and the accompanying prospectus shall form a single series. References herein to the notes shall include (unless the context otherwise requires) any further notes issued as described in this paragraph.

Unless otherwise provided and except with respect to Book-Entry Notes, principal of and premium, if any, and interest, if any, on the notes will be payable, and the transfer of notes will be registrable, at the Corporate Trust Office of the Trustee, except that, at the option of Navient, interest may be paid by mailing a check to the holder of the notes entitled thereto or, in accordance with arrangements satisfactory to the Trustee, at the option of the holder of the notes by wire transfer to an account designated by such holder.

For a description of payments of principal of, and premium, if any, and interest on, and transfer of, Book-Entry Notes and exchanges of Global Securities representing Book-Entry Notes, see “—Book-Entry, Delivery and Form.”

The notes will be issued only in fully registered form without coupons only in denominations of \$2,000 and in integral multiples of \$1,000 in excess thereof.

Optional Redemption

At any time or from time to time prior to June 15, 2027 (nine months prior to the stated maturity of the notes) (the “Par Call Date”), we may redeem the notes at our option, in whole or in part, at a redemption price equal to the greater of:

- 100% of the principal amount of the notes to be redeemed plus accrued and unpaid interest thereon to the date of redemption; and
- the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (exclusive of interest accrued to the date of redemption) that would be due if such notes matured on the Par Call Date, discounted to the date of redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30 day months) at the applicable Treasury Rate plus 50 basis points, plus accrued and unpaid interest on the principal amount being redeemed to the date of redemption.

In addition, at any time on or after the Par Call Date, we may redeem the notes at our option, in whole or in part, at a redemption price equal to the sum of:

- 100% of the principal amount of the notes to be redeemed, plus
- accrued and unpaid interest thereon to the date of redemption.

For purposes of determining the optional redemption price, the following definitions are applicable:

“Treasury Rate” means, with respect to any redemption date for the notes, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

The Treasury Rate will be calculated on the third business day preceding the redemption date.

“Comparable Treasury Issue” means the U.S. Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes being redeemed (assuming the notes matured on the Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining terms of the notes.

“Comparable Treasury Price” means, with respect to any redemption date:

- the average, as determined by the Independent Investment Banker, of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or
- if the Independent Investment Banker is unable to obtain at least four such Reference Treasury Dealer Quotations, the average of all Reference Treasury Dealer Quotations obtained by the Independent Investment Banker.

“Independent Investment Banker” means J.P. Morgan Securities LLC, Barclays Capital Inc and RBC Capital Markets, LLC as specified by us, or if these firms are unwilling or unable to select the applicable Comparable Treasury Issue or average of the Reference Treasury Dealer Quotations, an independent investment banking institution of national standing appointed by us.

“Reference Treasury Dealer” means J.P. Morgan Securities LLC, Barclays Capital Inc and RBC Capital Markets, LLC (and their respective successors) plus one other or their affiliates which are primary U.S. government securities dealers (each a “Primary Treasury Dealer”), provided however, that if any of the foregoing shall cease to be a Primary Treasury Dealer, we will substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date for the notes, an average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue for the notes (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

Notice of any redemption will be mailed at least 15 days but not more than 60 days before the redemption date to each registered holder of notes to be redeemed. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions of the notes called for redemption. If fewer than all of the notes are to be redeemed, the Trustee will select, not more than 60 days prior to the redemption date, the particular notes or portions thereof for redemption from the outstanding notes not previously called, pro rata, by lot or in such other manner as the Trustee shall deem appropriate (provided that, in the case of global notes, DTC may select beneficial interests in global notes for redemption pursuant to its applicable procedures). Any call redemption may, at our discretion, be conditioned upon the occurrence of one or more conditions precedent.

Repurchase Upon a Change of Control

If a Change of Control Triggering Event occurs, unless we have exercised our right, if any, to redeem the notes in full, we will offer (the “Change of Control Offer”) to repurchase any and all of each holder’s notes (equal to \$2,000 or an integral multiple of \$1,000 above that amount) at a repurchase price in cash equal to 101% of the aggregate principal amount of the notes repurchased plus accrued and unpaid interest, if any, thereon, to, but not including, the date of repurchase (the “Change of Control Payment”). Within 30 days following any Change of Control Triggering Event, we will be required to mail a notice to holders, with a copy to the trustee, describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no less than 30 days and no more than 60 days from the date such notice is mailed (the “Change of Control Payment Date”), pursuant to the procedures described in such notice.

We must comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control repurchase provisions of the notes, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control repurchase provisions of the notes by virtue of such conflicts.

We will not be required to offer to repurchase the notes upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and the third party repurchases on the applicable date all notes properly tendered and not withdrawn under its offer; provided that for all purposes of the notes and the Indenture governing the notes, a failure by such third party to comply with the requirements of such offer and to complete such offer shall be treated as a failure by us to comply with our obligations to offer to repurchase the notes unless we promptly make an offer to repurchase the notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, thereon, to, but not including, the date of repurchase, which shall be no later than 30 days after the third party’s scheduled Change of Control Payment Date.

On the Change of Control Payment Date, we will be required, to the extent lawful, to:

- accept or cause a third party to accept for payment all notes properly tendered pursuant to the Change of Control Offer;
- deposit or cause a third party to deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes properly tendered; and

- deliver or cause to be delivered to the trustee the notes properly accepted, together with an officer's certificate stating the principal amount of notes being repurchased.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of "all or substantially all" of the properties or assets of Navient and its subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise, established definition of the phrase under applicable law. Accordingly, the applicability of the requirement that we offer to repurchase the notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Navient and its subsidiaries taken as a whole to another Person (as defined in the Indenture governing the notes) or group may be uncertain.

For purposes of the foregoing discussion of the applicable Change of Control provisions, the following definitions are applicable:

"Board of Directors" means the board of directors or comparable governing body of Navient Corporation; provided that if Navient Corporation is a wholly-owned subsidiary of another person, the Board of Directors means the board of directors or comparable governing body of such person.

"Change of Control" means the occurrence of any of the following: (1) direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Navient Corporation and its subsidiaries taken as a whole to any "person" (as that term is used in Section 13(d)(3) of the Exchange Act) other than to Navient Corporation or one of its subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" (as that term is used in Section 13(d)(3) of the Exchange Act) other than Navient Corporation or one of its subsidiaries becomes the beneficial owner, directly or indirectly, of more than 50% of the then-outstanding number of shares of Navient Corporation's voting stock; (3) Navient Corporation consolidates with, or merges with or into, any "person" (as that term is used in Section 13(d)(3) of the Exchange Act), or any "person" (as that term is used in Section 13(d)(3) of the Exchange Act) consolidates with, or merges with or into, Navient Corporation, in any such event pursuant to a transaction in which any of the outstanding voting stock of Navient Corporation or such other "person" (as that term is used in Section 13(d)(3) of the Exchange Act) is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of the voting stock of Navient Corporation outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the voting stock of the surviving "person" (as that term is used in Section 13(d)(3) of the Exchange Act) immediately after giving effect to such transaction; (4) the first day on which a majority of the members of Navient Corporation's Board of Directors are not Continuing Directors; or (5) the adoption of a plan relating to the liquidation or dissolution of Navient Corporation; provided, however, that a transaction will not be deemed to involve a Change of Control if (A) we become a wholly owned subsidiary of a holding company and (B) the holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of Navient Corporation's voting stock immediately prior to that transaction. For purposes of this definition, "voting stock" means capital stock or other equity interests of any class or kind the holders of which are ordinarily, in the absence of contingencies, entitled to vote for the election of directors (or persons performing similar functions) of Navient Corporation, even if the right to vote has been suspended by the happening of such a contingency.

"Change of Control Triggering Event" means the occurrence of both (i) a Change of Control and (ii) a Ratings Downgrade Event.

"Continuing Directors" means, as of any date of determination, any member of the Board of Directors of Navient Corporation who (1) was a member of the Board of Directors of Navient Corporation on the date of the issuance of the notes; or (2) was nominated for election or elected to the Board of Directors of Navient Corporation with the approval of a majority of the Continuing Directors who were members of such Board of

Directors of Navient Corporation at the time of such nomination or election (either by specific vote or by approval of Navient Corporation's proxy statement in which such member was named as a nominee for election as a director).

"Fitch" means Fitch Ratings, Inc., or any successor rating agency.

"Investment Grade Rating" means a rating by Moody's equal to or higher than Baa3 (or the equivalent under a successor rating category of Moody's), a rating by S&P equal to or higher than BBB- (or the equivalent under any successor rating category of S&P), a rating by Fitch equal to or higher than BBB- (or the equivalent under any successor rating category of Fitch), and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us under the circumstances permitting us to select a replacement agency and in the manner for selecting a replacement agency, in each case as set forth in the definition of "Rating Agencies."

"Moody's" means Moody's Investors Service, Inc., or any successor rating agency.

"Navient Corporation" means Navient Corporation, or any successor.

"Rating Agencies" means (1) Moody's, S&P and Fitch; and (2) if any or all of Moody's, S&P or Fitch ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a "nationally recognized statistical rating organization" within the meaning of Section 3(a)(62) under the Exchange Act, that we select (pursuant to a resolution of the Board of Directors) as a replacement agency for any of Moody's, S&P or Fitch, or all of them, as the case may be.

"Ratings Downgrade Event" means, on any date during the Trigger Period, the notes being downgraded by at least one modifier (a modifier being plus, neutral or minus for S&P or Fitch, 1, 2 or 3 for Moody's and a similar modifier by any other Rating Agency) by any two of the three Rating Agencies from the rating on the notes by each such Rating Agency on the date prior to the first day of the Trigger Period; provided that no Ratings Downgrade Event shall be deemed to occur, if either (i) the rating on the notes by each Rating Agency that downgraded its rating is an Investment Grade Rating after the downgrade or (ii) in respect of a particular Change of Control, the Rating Agency or Agencies (as applicable) that downgraded the notes announce or confirm or inform the Trustee in writing that the reduction was not the result, in whole or in part, of any event or circumstance comprised of, or arising as a result of, or in respect of, the applicable Change of Control.

"S&P" means S&P Global Ratings, or any successor rating agency.

"Trigger Period" means the period commencing one day prior to the first public announcement by Navient Corporation of a Change of Control or an arrangement that could result in a Change of Control and ending 60 days following consummation of the Change of Control (which period will be extended following consummation of a Change of Control for so long as the rating of the notes is under announced consideration for possible downgrade by any of the Rating Agencies as the result, in whole or in part, of any event or circumstance comprised of, or arising as a result of, or in respect of, the applicable Change of Control).

Certain Covenants

The Indenture will contain certain covenants, including, among others, those described below. Except as set forth below, Navient will not be restricted by the Indenture from incurring any type of indebtedness or other obligation, from paying dividends or making distributions on its capital stock or from purchasing or redeeming its capital stock. In addition, except as described under "—Repurchase Upon a Change of Control," the Indenture will not contain any provisions that would require Navient to repurchase or redeem or otherwise modify the terms of any of the notes upon a change in control or other events involving Navient which may adversely affect the creditworthiness of the notes. The Indenture will not restrict the ability of Navient or its subsidiaries to transfer assets to and among Navient's subsidiaries.

Merger, Consolidation and Sale of Assets

Navient will not consolidate or merge with or into any other entity, or sell, convey, transfer or lease all or substantially all its assets to another entity, unless:

- either Navient shall be the continuing entity, or the successor, transferee or lessee entity (if other than Navient) shall be organized and existing under the laws of the United States or any state thereof and expressly assume prior to or simultaneously with such consolidation, merger, sale, conveyance, transfer or lease, all obligations under the Indenture and the notes to be performed or observed by Navient;
- immediately after such consolidation, merger, sale, conveyance, transfer or lease Navient or the successor, transferee or lessee entity would not be in default in the performance of any covenant or condition of the Indenture; and
- Navient shall have delivered to the Trustee an officer's certificate and an opinion of counsel, each stating that such consolidation, merger, conveyance or transfer and such supplemental indenture comply with the relevant section of the Indenture and that all conditions precedent provided for relating to such transaction have been complied with.

Events of Default

An Event of Default with respect to the notes is defined as follows:

- failure to pay interest on the notes, which continues for 30 days;
- failure to pay principal of or premium, if any, on the notes at maturity, redemption, acceleration or otherwise;
- failure to pay sinking fund installment, if any, which continues for 30 days;
- failure to perform or breach of any covenant of Navient in the Indenture (other than a default in the performance or breach of a covenant included in the Indenture solely for the benefit of debt securities of Navient other than the notes offered pursuant to this prospectus supplement), which continues for 90 days after written notice has been given to Navient by the Trustee or to Navient and the Trustee by the holders of at least 25% in aggregate principal amount of the notes then outstanding; and
- certain events of bankruptcy, insolvency or reorganization of Navient.

The Indenture provides that, if any Event of Default with respect to the notes occurs and is continuing, either the Trustee or the holders of not less than 25% in principal amount of the notes then outstanding may declare the principal amount of (and all accrued and unpaid interest and premium, if any, on) all notes to be due and payable immediately, but under certain conditions such declaration may be rescinded and annulled and past defaults (except, unless theretofore cured, a default in payment of principal of or premium, if any, or interest, if any, on the notes and certain other specified defaults) may be waived by the holders of not less than a majority in principal amount of the notes on behalf of the holders of all the notes.

Within 90 days after the occurrence of a default, and if known to the Trustee, the Trustee shall give notice to the holders of the notes of the default, unless such default shall have been cured or waived before the giving of such notice. Except in the case of a default in payment of the principal of, premium, if any, or interest on the notes, the Trustee shall be protected in withholding such notice, if the Trustee in good faith determines that the withholding of such notice is in the interests of the holders. For purposes of the provision described in this paragraph, the term default with respect to any notes means any event which is, or after notice or lapse of time or both, would become an "Event of Default" specified in the Indenture with respect to the notes.

The Trustee is required, during an Event of Default, to act with the standard of care provided in the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"). The Indenture provides that the holders of a majority in principal amount of the notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee with respect to

the notes. However, the Indenture contains a provision entitling the Trustee to be indemnified to its satisfaction by holders of the notes before proceeding to exercise any right or power vested in it under the Indenture at the request or direction of the holders of the notes. The terms of the indemnification required by the Trustee will depend on the nature of the right or power requested or directed to be exercised by the holders and the circumstances that exist at that time. Generally, the Trustee would expect to be fully protected for all actions.

Modification and Waiver

Modifications and amendments may be made by Navient and the Trustee to the Indenture, without the consent of any holder of the notes, to, among other things:

- add to the covenants and agreements of Navient and to add Events of Default, in each case for the protection or benefit of the holders;
- evidence the succession of another corporation to Navient, or successive successions, and the assumption by such successor of the covenants and obligations of Navient;
- evidence and provide for the acceptance of appointment under the Indenture by a successor Trustee and to add to or change any of the provisions of the Indenture as shall be necessary for or facilitate the administration of the trusts thereunder by more than one Trustee;
- secure the notes or to add guarantors or co-obligors with respect to the notes or release guarantors from their guarantees of the notes in accordance with the terms of the notes;
- cure any ambiguity or inconsistency or to correct or supplement any provision contained in the Indenture which may be defective or inconsistent with any other provision in the Indenture or to conform the terms in the Indenture to the description of the terms of the notes in the prospectus supplement;
- add to or change or eliminate any provision of the Indenture as shall be necessary or desirable in accordance with any amendments to the Trust Indenture Act;
- make any change that does not adversely affect in any material respect the interests of the holders of the notes;
- provide for uncertificated securities in addition to certificated securities; or
- permit or facilitate the defeasance and discharge of the notes provided that any such action shall not adversely affect the interests of the holders of the notes or any other series of securities issued under the Indenture.

The Indenture contains provisions permitting Navient and the Trustee, with the consent of the holders of a majority in aggregate in principal amount of the notes then outstanding to execute supplemental indentures adding any provisions to or changing or eliminating any of the provisions of the Indenture or modifying the rights of the holders of the notes, except that no such supplemental indenture may, without the consent of the holder of each note affected thereby:

- extend the stated maturity of the principal of, or any installment of interest on, the notes, or reduce the principal amount thereof or interest thereon or any premium payable on redemption of the notes or change the currency in which the principal of and premium, if any, or interest on the notes is denominated or payable;
- reduce the percentage in principal amount of the notes, the consent of whose holders is required for any supplemental indenture or for waiver of compliance with certain provisions of the Indenture or certain defaults thereunder;
- reduce the percentage of holders of the notes required to consent to any waiver of defaults, covenants or supplemental indentures; or
- modify, without the written consent of the Trustee, the rights, duties or immunities of the Trustee.

The holders of a majority in aggregate principal amount of the outstanding notes may, on behalf of all the holders of all notes:

- waive compliance by Navient with certain restrictive provisions of the Indenture, as detailed in the Indenture; or
- waive any past default or event of default under the Indenture and its consequences, except a default or event of default in the payment of any amount due with respect to any note, or in respect of any provision which under the Indenture cannot be modified or amended without the consent of the holder of each outstanding note affected.

Satisfaction and Discharge

The Indenture will cease to be of further effect if:

- all notes (other than destroyed, lost or stolen notes which have been replaced or paid and notes, the payment for which has been held in trust and thereafter repaid to Navient or discharged from such trust) have been delivered to the Trustee for cancellation; or
- all notes not previously delivered to the Trustee for cancellation have become due and payable or are by their terms to become due and payable at their stated maturity within one year or, if redeemable at the option of Navient, are to be called for redemption within one year under arrangements satisfactory to the Trustee and Navient has deposited with the Trustee, as trust funds, an amount sufficient to pay and discharge the entire indebtedness on the notes for principal and any premium and interest to the date of such deposit or to maturity or redemption, as the case may be; provided, however, in the event a bankruptcy petition is filed with respect to Navient within 91 days after the deposit and the Trustee is required to return the moneys then on deposit with the Trustee to Navient, obligations of Navient under the Indenture will not be deemed terminated or discharged.

Such trust may only be established if:

- Navient has paid or caused to be paid all other sums payable by Navient under the Indenture; and
- Navient has delivered to the Trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent provided for in the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

Defeasance

The Indenture provides that the terms of the notes may provide Navient with the option to discharge its indebtedness represented by such notes or to cease to be obligated to comply with certain covenants under the Indenture. Navient, in order to exercise such option, will be required to deposit with the Trustee money and/or U.S. government obligations which, through the payment of interest and principal in respect thereof in accordance with their terms, will provide money in an amount sufficient to pay the principal of and premium, if any, and interest on, the notes at the stated maturity of such payments in accordance with the terms of the Indenture and such notes, provided, however, in the case of the notes being discharged, in the event a bankruptcy petition is filed with respect to Navient within 91 days after the deposit and the Trustee is required to return the money and/or U.S. government obligations then on deposit with the Trustee to Navient, such indebtedness will not be deemed discharged.

Such trust may only be established if:

- no default or event that with notice or lapse of time or both would become an event of default shall have occurred and be continuing on the date of such deposit (other than a default resulting from the borrowing of funds and the grant of any related liens to be applied to such deposit);
- Navient has delivered to the Trustee:

- an opinion of counsel, stating that the holders of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of Navient’s exercise of this defeasance option and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if Navient had not exercised this option; and
- in the case of the notes being discharged, accompanied by a ruling to that effect received from or published by the U.S. Internal Revenue Service (the “IRS”).

Trustee

The Trustee may resign or be removed with respect to the notes and a successor trustee may be appointed to act with respect to such notes.

Book-Entry, Delivery and Form

The notes will be represented by one or more permanent global notes in definitive, fully registered form without interest coupons. Upon issuance, the notes will be deposited with The Bank of New York Mellon, as Trustee, as custodian for DTC, and registered in the name of DTC or its nominee.

Ownership of beneficial interests in a global note will be limited to persons who have accounts with DTC, which we refer to as “participants,” or persons who hold interests through participants. Ownership of beneficial interests in a global note will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

So long as DTC, or its nominee, is the registered owner or holder of any of the notes, DTC or that nominee as the case may be, will be considered the sole owner or holder of such notes represented by the global note for all purposes under the Indenture and the notes. No beneficial owner of an interest in a global note will be able to transfer such interest except in accordance with DTC’s applicable procedures, in addition to those provided for under the Indenture.

Payments of the principal of, and interest on, a global note will be made to DTC or its nominee, as the case may be, as the registered owner thereof. None of the Trustee, any paying agent, or we, or any of their or our agents, will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a global note, will credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global note as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in such global note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and procedures and will be settled in same-day funds.

We expect that DTC will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account the DTC interests in a global note is credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have

given such direction. However, if there is an event of default under the notes, DTC will exchange the applicable global note for certificated notes, which it will distribute to its participants.

A global note is exchangeable for definitive notes in registered certificated form if:

- DTC (i) notifies us that it is unwilling or unable to continue as depository for the global notes, and we fail to appoint a successor depository, or (ii) has ceased to be a clearing agency registered under the Exchange Act;
- at our option, we notify the trustees in writing that we have elected to cause the issuance of the certificated securities; or
- there has occurred and is continuing a default or event of default with respect to the notes.
- In addition, beneficial interests in a global note may be exchanged for certificated securities upon prior written notice given to the trustees by or on behalf of DTC in accordance with the Indenture.

In all cases, certificated securities delivered in exchange for any beneficial interests in global notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures). Certificated securities may be presented for registration, transfer and exchange at The Bank of New York Mellon, New York, New York, or the office or agency designated for such purpose.

DTC has advised us that: DTC is a limited purpose trust company organized under the laws of the State of New York, a “banking organization” within the meaning of New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies and certain other organizations that clear through or maintain a custodial relationship with a participant, either directly or indirectly, whom we refer to as indirect participants.

Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in a global note among participants of DTC, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the trustee, the paying agent, or we, or any of their or our agents, will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Same Day Settlement and Payment

We will make payments in respect of the notes (including principal, interest and premium, if any) at the Corporate Trust Office of the Trustee except that, at the option of Navient, we will make payments of interest by check mailed to the registered address of the holder of the notes entitled thereto or, in accordance with arrangements satisfactory to the Trustee, at the option of the holder of the notes by wire transfer to an account designated by such holder. The notes represented by the global notes are expected to trade in DTC’s Same Day Funds Settlement System, and any permitted secondary market trading activity in the notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any certificated securities will also be settled in immediately available funds.

Euroclear and Clearstream

Investors may hold interests in the notes outside the United States through Euroclear or Clearstream if they are participants in those systems, or indirectly through organizations which are participants in those systems.

Euroclear and Clearstream will hold interests on behalf of their participants through customers' securities accounts in Euroclear's and Clearstream's names on the books of their respective depositaries which in turn will hold such positions in customers' securities accounts in the names of the nominees of the depositaries on the books of DTC. The following is based on information furnished by Euroclear or Clearstream, as the case may be.

Euroclear has advised us that:

- It was created in 1968 to hold securities for participants of Euroclear and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash;
- Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries;
- Euroclear is operated by Euroclear Bank S.A./ N.V., as operator of the Euroclear System (the "Euroclear Operator"), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the "Cooperative");
- The Euroclear Operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear participants. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include underwriters of securities offered by this prospectus supplement;
- Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly;
- Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions");
- The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants, and has no record of or relationship with persons holding through Euroclear participants; and
- Distributions with respect to securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

Clearstream has advised us that:

- It is incorporated under the laws of Luxembourg as a professional depository and holds securities for its participating organizations and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates;
- Clearstream provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries;
- As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute;
- Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include underwriters of securities offered by this prospectus supplement;

- Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream participant either directly or indirectly; and
- Distributions with respect to the securities held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

We have provided the following descriptions of the operations and procedures of Euroclear and Clearstream solely as a matter of convenience. These operations and procedures are solely within the control of Euroclear and Clearstream and are subject to change by them from time to time. Neither we, the underwriters, nor the Trustee take any responsibility for these operations or procedures, and you are urged to contact Euroclear or Clearstream or their respective participants directly to discuss these matters.

Secondary market trading between Euroclear participants and Clearstream participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Euroclear and Clearstream and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream participants, on the other, will be effected within DTC in accordance with DTC's rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving notes in DTC, and making or receiving payment in accordance with normal procedures. Euroclear participants and Clearstream participants may not deliver instructions directly to their respective U.S. depositories.

Because of time-zone differences, credits of securities received in Euroclear or Clearstream as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the securities settled during such processing, will be reported to the relevant Euroclear participants or Clearstream participants on that business day. Cash received in Euroclear or Clearstream as a result of sales of securities by or through a Euroclear participant or a Clearstream participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day following settlement in DTC.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Euroclear and Clearstream, they are under no obligation to perform or continue to perform such procedures and they may discontinue the procedures at any time.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

General

The following is a summary of the U.S. federal income tax considerations generally applicable to an investment in the notes by Non-U.S. Holders (as defined herein). The summary is based on the Code, U.S. Treasury regulations promulgated thereunder, judicial decisions, published positions of the IRS and other applicable authorities, all as in effect as of the date hereof and all of which are subject to change or differing interpretations (possibly on a retroactive basis). This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular person or persons subject to special treatment under U.S. federal income tax laws (such as broker dealers, traders in securities that elect to use a mark-to-market method of accounting, financial institutions, regulated investment companies, real estate investment trusts, tax-exempt organizations, insurance companies, persons who hold notes as part of a hedging, integrated, straddle, conversion or constructive sale transaction for U.S. federal income tax purposes, persons subject to the alternative minimum or the Medicare tax on certain investment income, U.S. expatriates, controlled foreign corporations, passive foreign investment companies or persons that are, or hold their notes through, partnerships or other pass-through entities) all of whom may be subject to tax rules that differ from those summarized below. Moreover, this discussion does not address any foreign, state or local tax considerations, or any U.S. federal tax considerations other than U.S. federal income tax considerations. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

In addition, this discussion deals only with certain U.S. federal income tax considerations for a holder that acquires the notes in the initial offering at their issue price and holds the notes as capital assets within the meaning of the Code (generally, property held for investment).

This summary is based on current U.S. federal income tax law, which is subject to change, possibly with retroactive effect.

EACH PROSPECTIVE PURCHASER OF THE NOTES SHOULD CONSULT ITS TAX ADVISOR CONCERNING THE U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSIDERATIONS OF AN INVESTMENT IN SUCH NOTES.

A “U.S. Holder” means a beneficial owner of a note (as determined for U.S. federal income tax purposes) that, for U.S. federal income tax purposes, is:

- a citizen or individual resident of the United States;
- a corporation created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust, (i) the administration of which is subject to the primary supervision of a court within the United States and for which one or more U.S. persons have the authority to control all substantial decisions, or (ii) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

A “Non-U.S. Holder” means any beneficial owner of a note (as determined for U.S. federal income tax purposes) that is not a U.S. Holder or a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes). If a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds a note, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding a note should consult its tax advisor concerning the U.S. federal income and other tax considerations of its investment in the notes.

Tax Considerations for Non-U.S. Holders

Interest. A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on interest paid or accrued on a note if: (1) the interest is not effectively connected with the conduct of a trade or business by the Non-U.S. Holder within the United States and, where required by an applicable income tax treaty (and the holder complies with applicable certification and other requirements to claim treaty benefits), is not attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States and (2) the Non-U.S. Holder satisfies the following requirements:

- (i) the Non-U.S. Holder does not actually or constructively own stock representing 10% or more of the total combined voting power of all classes of our stock entitled to vote;
- (ii) the Non-U.S. Holder is not a controlled foreign corporation related to us (directly or indirectly) through stock ownership;
- (iii) the Non-U.S. Holder is not a bank whose receipt of interest on the notes is described in Section 881(c)(3)(A) of the Code;
- (iv) either (A) the Non-U.S. Holder certifies to its non-U.S. status and that no withholding is required pursuant to FATCA (discussed below) on IRS Form W-8BEN or W-8BEN-E (or a substantially similar form), as applicable, or (B) a securities clearing organization or certain other financial institutions holding the note on behalf of the Non-U.S. Holder certifies on IRS Form W-8IMY that such certification has been received by it and furnishes us or our paying agent with a copy of the IRS Form W-8IMY together with the W-8BEN or W-8BEN-E of the beneficial owner, together with a withholding statement, if applicable; and
- (v) we or our paying agent do not have actual knowledge or reason to know that the beneficial owner of the note is a U.S. person.

If a Non-U.S. Holder cannot satisfy the requirements described in clause (1) above, please see the discussion set forth under the heading “U.S. Trade or Business” below. If a Non-U.S. Holder cannot satisfy the requirements described in clause (2) above and does not establish that the interest is effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States, interest on the notes generally will be subject to U.S. federal withholding tax at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty, provided certain certification requirements are met).

Sale, Exchange, Retirement, Redemption or Other Taxable Disposition of a Note. A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on the receipt of payments of principal on a note or on any gain recognized upon the sale, exchange, retirement, redemption or other taxable disposition of a note, unless in the case where (i) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States and, where required by an applicable income tax treaty (and the holder complies with applicable certification and other requirements to claim treaty benefits), is attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder within the United States or (ii) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met.

U.S. Trade or Business. If a Non-U.S. Holder is engaged in a trade or business in the United States, and if interest or gain on a note is effectively connected with the conduct of such trade or business and, where required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder within the United States, the Non-U.S. Holder generally will be subject to U.S. federal income tax on the receipt or accrual of such interest or the recognition of gain, the sale or other taxable disposition of the note on a net basis in the same manner as if such holder were a U.S. Holder. If such interest or gain is recognized by a Non-U.S. Holder that is classified as a non-U.S. corporation, such corporation may also be subject to an additional U.S. federal branch profits tax at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty). Non-U.S. Holders should consult their tax advisors with respect to other U.S. tax considerations of the ownership and disposition of the notes.

Foreign Account Tax Compliance Act

Under the provisions of U.S. federal income tax law commonly known as “FATCA,” withholding at a rate of 30% generally will be required in certain circumstances on interest in respect of the notes held by or through certain foreign financial institutions (including investment funds), unless such institution (i) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments or (ii) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country, or other guidance, may modify these requirements. Accordingly, the entity through which each note is held will affect the determination of whether such withholding is required. Similarly, in certain circumstances, interest in respect of the notes held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exemptions generally will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us or our paying agent that such entity does not have any “substantial United States owners” or (ii) provides certain information regarding the entity’s “substantial United States owners,” which we or our paying agent will in turn provide to the IRS. We will not pay additional amounts to Non-U.S. Holders in respect of any amounts withheld. Prospective investors should consult their tax advisors regarding the possible implications of these rules on their investment in the notes.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus supplement, the underwriters named below, for whom J.P. Morgan Securities LLC, Barclays Capital Inc and RBC Capital Markets, LLC are acting as the representatives, have severally agreed to purchase, and we have agreed to sell to them, severally, the principal amount of notes set forth opposite their names below:

<u>Underwriters</u>	<u>Principal amount of notes</u>
J.P. Morgan Securities LLC	\$125,000,000
Barclays Capital Inc.	125,000,000
RBC Capital Markets, LLC	125,000,000
BofA Securities, Inc.	62,500,000
Credit Suisse Securities (USA) LLC	62,500,000
Total	\$500,000,000

The underwriters are offering the notes subject to their acceptance of the notes from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement if any such notes are taken.

The underwriters initially propose to offer the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at a price that represents a concession not in excess of 0.6% of the principal amount of the notes. Any such dealers may resell the notes purchased from the underwriters to certain other brokers or dealers at a discount not to exceed 0.4% of the principal amount of the notes. After the initial offering of the notes, the offering price and other selling terms may from time to time be varied by the representatives. The underwriters may offer and sell the notes through certain of their affiliates.

The following table shows the underwriting discount that we will pay to the underwriters in connection with this offering:

	<u>Note Paid by Us</u>
Per note	1.000%
Total	\$5,000,000

Expenses associated with this offering to be paid by us, other than underwriting discounts, are estimated to be approximately \$1.1 million.

In connection with the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may over allot in connection with the offering of the notes, creating a syndicate short position. In addition, the underwriters may bid for, and purchase, notes in the open market to cover syndicate short positions or to stabilize the price of the notes. The underwriters may also impose a penalty bid. This occurs when a certain underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions. Finally, the underwriting syndicate may reclaim selling concessions allowed for distributing the notes in the offering of the notes, if the syndicate repurchases previously distributed notes in syndicate covering transactions, stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the notes above independent market levels. The underwriters are not required to engage in any of these activities, and may end any of them at any time.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

Prior to the offering, there have been no active markets for the notes. The underwriters have advised us that certain of the underwriters presently intend to make markets in the notes as permitted by applicable laws and regulations. Such underwriters are not obligated, however, to make the markets in the notes and any such market making may be discontinued at any time at the discretion of such underwriters. Accordingly, no assurance can be given as to the liquidity of, or trading markets for, the notes.

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for the issuer and its affiliates, for which they received or may in the future receive customary fees and expenses. In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer or its affiliates. If the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and certain of their affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

General

We may sell the debt securities, including original issue discount securities, at par or at a substantial discount below their stated principal amount. Unless we inform you otherwise in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series or any other series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of securities under the applicable indenture.

We will describe in an accompanying prospectus supplement any other special considerations for any debt securities we sell that are denominated in a currency or currency unit other than U.S. dollars. In addition, debt securities may be issued where the amount of principal and/or interest payable is determined by reference to one or more currency exchange rates, commodity prices, equity indices or other factors. Holders of such securities may receive a principal amount or a payment of interest that is greater than or less than the amount of principal or interest otherwise payable on such dates, depending upon the value of the applicable currencies, commodities, equity indices or other factors. Information as to the methods for determining the amount of principal or interest, if any, payable on any date, and the currencies, commodities, equity indices or other factors to which the amount payable on such date is linked will be described in an accompanying prospectus supplement.

United States federal income tax consequences and special considerations, if any, applicable to any such series will be described in an accompanying prospectus supplement.

We expect most debt securities to be issued in fully registered form without coupons and in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof. Subject to the limitations provided in the indentures and in an accompanying prospectus supplement, debt securities that are issued in registered form may be transferred or exchanged at the designated corporate trust office of the trustee, without the payment of any service charge, other than any tax or other governmental charge payable in connection therewith.

Global Securities

With respect to debt securities issued under the 2014 Senior Indenture, unless we inform you otherwise in an accompanying prospectus supplement, the debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depository identified in the accompanying prospectus supplement. With respect to debt securities issued under the 2000 Senior Indenture, we may issue debt securities of a series, in whole or in part, in the form of one or more global securities, registered in the name of Cede & Co., the nominee of The Depository Trust Company, New York, New York, unless the accompanying prospectus supplement or pricing supplement describes another depository or states that no global securities will be issued. With respect to debt securities issued under the 2014 Senior Indenture, global securities will be issued in registered form and in either temporary or definitive form. With respect to debt securities issued under the 2000 Senior Indenture, such debt securities will be issued in temporary or definitive form, and unless we indicate otherwise in the accompanying prospectus supplement, we will issue debt securities only as registered securities. Unless and until a global security is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depository for such global security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor.

Governing Law

The indentures and the debt securities shall be construed in accordance with and governed by the laws of the State of New York.

DESCRIPTION OF CAPITAL STOCK

General

The following summary description of our capital stock is based on the provisions of the Delaware General Corporation Law (the “DGCL”), our amended and restated certificate of incorporation and our amended and restated bylaws. This description does not purport to be complete and is qualified in its entirety by reference to the full text of the DGCL, as it may be amended from time to time, and to the terms of our amended and restated certificate of incorporation and by-laws, as each may be amended from time to time, which are exhibits to the registration statement of which this prospectus is a part. See “Where You Can Find More Information.”

Under our amended and restated certificate of incorporation, our authorized capital stock is 1,125,000,000 shares of common stock, \$0.01 par value, and 20,000,000 shares of preferred stock, \$0.20 par value.

As of May 26, 2020, 193,832,080 shares of our common stock were outstanding and no preferred stock was outstanding.

Common Stock

Each holder of our common stock is entitled to one vote for each share on all matters to be voted upon by the common stockholders, and there are no cumulative voting rights. Holders of common stock are not entitled to vote on any amendment to our amended and restated certificate of incorporation that relates solely to the terms of one or more outstanding series of preferred stock if the holders of such affected series of preferred stock are entitled, either separately or together as a class with the holders of one or more other series of preferred stock, to vote on such amendment pursuant to our amended and restated certificate of incorporation or the DGCL.

Subject to any preferential rights of the holders of any outstanding preferred stock, holders of our common stock are entitled to receive ratably the dividends, if any, as may be declared from time to time by our board of directors out of funds legally available for that purpose. If there is a liquidation, dissolution or winding up of the Company, holders of our common stock would be entitled to share ratably in the assets legally available for distribution after the payment or provision in full of all liabilities and any preferential rights of the holders of any then outstanding preferred stock.

Holders of our common stock have no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to shares of the common stock. Upon the distribution, all outstanding shares of the common stock will be fully paid and non-assessable. The rights, preferences and privileges of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may authorize and issue in the future.

We will distribute a prospectus supplement with regard to each issue of common stock. Each prospectus supplement will describe the specific terms of the common stock offered through that prospectus supplement and any general terms outlined above that will not apply to that common stock.

Preferred Stock

We may issue preferred stock in one or more series with any rights and preferences that may be authorized by our board of directors.

We will distribute a prospectus supplement with regard to each particular series of preferred stock. Each prospectus supplement will describe, as to the series of preferred stock to which it relates:

- the title of the series of preferred stock;
- any limit upon the number of shares of the series of preferred stock that may be issued;

- the preference, if any, to which holders of the series of preferred stock will be entitled upon our liquidation;
- the date or dates, if any, on which we will be required or permitted to redeem the preferred stock;
- the terms, if any, on which we or holders of the preferred stock will have the option to cause the preferred stock to be redeemed or purchased;
- the voting rights, if any, of the holders of the preferred stock;
- the dividends, if any, that will be payable with regard to the series of preferred stock, which may be fixed dividends or participating dividends, and may be cumulative or non-cumulative;
- the right, if any, of holders of the preferred stock to convert it into another class of our stock or securities, including provisions intended to prevent dilution of those conversion rights;
- any provisions by which we will be required or permitted to make payments to a sinking fund to be used to redeem preferred stock, or a purchase fund to be used to purchase preferred stock;
- any restrictions on issuance of shares in the same series or any other series; and
- any other material terms of the preferred stock.

Any or all of these rights may be greater than the rights of the holders of common stock. In addition, our board of directors, without shareholder approval, may issue preferred stock with voting, conversion or other rights that could adversely affect the voting power and other rights of the holders of our common stock.

The terms of the preferred stock that might be issued could conceivably prohibit us from:

- consummating a merger;
- reorganizing;
- selling substantially all of our assets;
- liquidating; or
- engaging in other extraordinary corporate transactions without shareholder approval.

Preferred stock could therefore be issued with terms calculated to delay, defer or prevent a change in our control or to make it more difficult to remove our management. Our issuance of preferred stock may have the effect of decreasing the market price of the common stock.

Anti-Takeover Effects of Provisions of the Certificate of Incorporation, By-laws and Other Agreements

Provisions of the DGCL and our amended and restated certificate of incorporation and amended and restated by-laws could make it more difficult to acquire us by means of a tender offer, a proxy contest or otherwise, or to remove incumbent officers and directors. These provisions, summarized below, are expected to discourage certain types of coercive takeover practices and takeover bids that our board of directors may consider inadequate and to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe the heightened ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us outweighs the disadvantages of discouraging takeover or acquisition proposals because, among other things, negotiation of these proposals could result in an improvement of their terms.

Delaware Anti-Takeover Statute. We are subject to Section 203 of the DGCL, an anti-takeover statute. In general, Section 203 of the DGCL prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years following the time the person became an interested stockholder, unless the business combination or the acquisition of shares that resulted in a

stockholder becoming an interested stockholder is approved in a prescribed manner. Generally, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns (or within three years prior to the determination of interested stockholder status did own) fifteen percent (15%) or more of a corporation’s voting stock. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by our stockholders.

Amendments to Amended and Restated By-Laws. Our amended and restated certificate of incorporation and amended and restated by-laws provide that the amended and restated by-laws may be amended by our board of directors or by the affirmative vote of holders of at least seventy-five percent (75%) in voting power of our stock then outstanding and entitled to vote thereon.

Size of Board and Vacancies. Our amended and restated certificate of incorporation and amended and restated bylaws provide that the number of directors on our board of directors will be fixed exclusively by our board of directors, subject to the rights of the holders of any outstanding preferred stock to elect directors. Any newly created directorship or any vacancy in our board of directors resulting from any increase in the authorized number of directors or the death, disability, resignation, retirement, disqualification, removal from office or other cause will be filled solely by the affirmative vote of a majority of the board of directors then in office, even if less than a quorum, or by a sole remaining director. Any director appointed to fill a vacancy on our board of directors not resulting from an increase in the size of the board will be appointed for the remaining term of his or her predecessor, and until his or her successor has been elected and qualified, subject to his or her earlier death, disqualification, resignation or removal.

Stockholder Action by Written Consent. Subject to the rights of any series of preferred stock, our amended and restated certificate of incorporation expressly eliminates the right of our stockholders to act by written consent. Stockholder action must take place at the annual or a special meeting of our stockholders.

Requirements for Advance Notification of Stockholder Nominations and Proposals. Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and nomination of candidates for election as directors other than nominations made by or at the direction of our board of directors or a committee of our board of directors.

No Cumulative Voting. The DGCL provides that stockholders are denied the right to cumulate votes in the election of directors unless the company’s certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation does not provide for cumulative voting in the election of directors.

Undesignated Preferred Stock. The authority that our board of directors possesses to issue preferred stock could potentially be used to discourage attempts by third parties to obtain control of us through a merger, tender offer, proxy contest or otherwise by making such attempts more difficult or more costly. Our board of directors may be able to issue preferred stock with voting rights or conversion rights that, if exercised, could adversely affect the voting power of the holders of common stock.

Listing

Our common stock is listed on NASDAQ under the trading symbol “NAVI.”

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of debt securities, common stock, preferred stock or units of two or more of these types of securities.

Warrants may be issued independently or together with debt securities, preferred stock or common stock, and may be attached to or separate from any offered securities. Each series of warrants will be issued under a separate warrant agreement that we will enter into with a bank or trust company, as warrant agent, as detailed in an accompanying prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation, or agency or trust relationship, with you.

The prospectus supplement relating to a particular issue of warrants will describe the terms of those warrants, including, when applicable:

- the offering price;
- in the case of warrants to purchase debt securities, the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities purchasable upon exercise of the warrants, and the price at which you may purchase the debt securities upon exercise;
- in the case of warrants to purchase preferred stock, the designation, number of shares, stated value and terms, such as liquidation, dividend, conversion and voting rights, of the series of preferred stock purchasable upon exercise of the warrants, and the price at which you may purchase shares of preferred stock of that series upon exercise;
- in the case of warrants to purchase common stock, the number of shares of common stock purchasable upon the exercise of the warrants and the price at which you may purchase shares of common stock upon exercise;
- in the case of warrants to purchase units of two or more securities, the type, number and terms of the units
- purchasable upon exercise of the warrants and the price at which you may purchase units upon exercise;
- the period during which you may exercise the warrants;
- any provision adjusting the securities that may be purchased on exercise of the warrants, and the exercise price of the warrants, to prevent dilution or otherwise;
- the rights, if any, we have to redeem the warrants;
- the place or places where warrants can be presented for exercise or for registration of transfer or exchange; and
- any other material terms of the warrants.

Unless we provide otherwise in a prospectus supplement, warrants for the purchase of preferred stock and common stock will be offered and exercisable for U.S. dollars only, and will be issued in registered form only. The exercise price for warrants will be subject to adjustment as described in the prospectus supplement for those warrants.

Prior to the exercise of any warrants to purchase debt securities, preferred stock or common stock, holders of the warrants will not have any of the rights of holders of the securities purchasable upon exercise, including:

- in the case of warrants for the purchase of debt securities, the right to receive payments of principal of or any premium or interest on the debt securities purchasable upon exercise, or to enforce covenants in the applicable indenture; or

- in the case of warrants for the purchase of preferred stock or common stock, the right to vote or to receive any payments of dividends on the preferred stock or common stock purchasable upon exercise.

The description in an accompanying prospectus supplement of any warrants we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable warrant agreement, which will be filed with the SEC if we offer warrants. For more information on how you can obtain copies of any warrant agreement if we offer warrants, see “Where You Can Find More Information.” We urge you to read the applicable warrant agreement and any accompanying prospectus supplement in their entirety.

DESCRIPTION OF UNITS

We may issue units consisting of common stock, preferred stock, debt securities and warrants, or any combination of those securities. The prospectus supplement relating to the offering of such units will describe their terms, including the following:

- the terms of each of the securities included in the units, including whether and under what circumstances the securities included in the units may or may not be traded separately;
- the terms of any unit agreement governing the units;
- if applicable, a discussion of certain U.S. federal income tax considerations; and
- the provision for the payment, settlement, transfer or exchange of the units.

The description in an accompanying prospectus supplement of any units we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable units agreement, if any, or documents governing the units or the components of the units, which will be filed with the SEC if we offer units. For more information on how you can obtain copies of any agreement if we offer units, see “Where You Can Find More Information.” We urge you to read the applicable unit agreement and any accompanying prospectus supplement in their entirety.

PLAN OF DISTRIBUTION

We may sell any of the securities being offered by this prospectus separately or together:

- through agents;
- to or through underwriters who may act directly or through a syndicate represented by one or more managing underwriters;
- through dealers;
- through a block trade in which the broker or dealer engaged to handle the block trade will attempt to sell the securities as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- in exchange for our outstanding indebtedness;
- directly to purchasers, through a specific bidding, auction or other process; or
- through a combination of any of these methods of sale.

If the securities offered under this prospectus are issued in exchange for our outstanding securities, the applicable prospectus supplement will describe the terms of the exchange, and the identity and the terms of sale of the securities offered under this prospectus.

The distribution of securities may be effected from time to time in one or more transactions at a fixed price or prices that may be changed, at market prices prevailing at the time of sale or prices related to prevailing market prices or at negotiated prices.

Agents designated by us from time to time may solicit offers to purchase the securities. We will name any agent involved in the offer or sale of the securities and set forth any commissions payable by us to an agent in the prospectus supplement or pricing supplement for that transaction. Unless otherwise indicated in the prospectus supplement or pricing supplement, any agent will be acting on a best efforts basis for the period of its appointment. Any agent may be deemed to be an “underwriter” of the securities as that term is defined in the Securities Act.

If we utilize an underwriter or underwriters in the sale of securities, we will execute an underwriting agreement with the underwriter or underwriters at the time we reach an agreement for sale. We will set forth in the prospectus supplement the names of the specific managing underwriter or underwriters, as well as any other underwriters, and the terms of the transactions, including compensation of the underwriters and dealers. This compensation may be in the form of discounts, concessions or commissions. Underwriters and others participating in any offering of securities may engage in transactions that stabilize, maintain or otherwise affect the price of securities. We will describe any of these activities in the prospectus supplement.

If a dealer is utilized in the sale of the securities, we or an underwriter will sell securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. The prospectus supplement will set forth the name of the dealer and the terms of the transactions.

We may directly solicit offers to purchase the securities, and we may sell directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. The prospectus supplement will describe the terms of any direct sales, including the terms of any bidding or auction process, if utilized.

Agreements we enter into with agents, underwriters and dealers may entitle them to indemnification by us against specified liabilities, including liabilities under the Securities Act, or to contribution by us to payments

they may be required to make in respect of these liabilities. The prospectus supplement will describe the terms and conditions of indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates, may be our customers, or engage in transactions with or perform services for us and our subsidiaries in the ordinary course of business.

Certain of the agents, underwriters and dealers that we sell the securities offered under this prospectus to or through, and certain of their affiliates, engage in transactions with and perform services for us in the ordinary course of business. We may enter into hedging transactions in connection with any particular issue of the securities offered under this prospectus, including forwards, futures, options, interest rate or exchange rate swaps and repurchase or reverse repurchase transactions with, or arranged by, the applicable agent, underwriter or dealer, an affiliate of that agent, underwriter or dealer or an unrelated entity. We, the applicable agent, underwriter or dealer or other parties may receive compensation, trading gain or other benefits in connection with these transactions. We are not required to engage in any of these transactions. If we commence these transactions, we may discontinue them at any time. Counterparties to these hedging activities also may engage in market transactions involving the securities offered under this prospectus. We may also loan or pledge securities covered by this prospectus and any accompanying prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and any accompanying prospectus supplement.

No securities may be sold under this prospectus without delivery (in paper format, in electronic format, in electronic format on the Internet, or by other means) of the applicable prospectus supplement or pricing supplement describing the method and terms of the offering.
